Kitchen Solutions - Accessories

Years of experience, yet still as curious as kids.

At Franke, we have been looking for new solutions and innovations for over 100 years and our attitude still has not changed. In 1911 we combined traditional craftsmanship, precision engineering and a constant pursuit of innovation, three principles that remain at our core.

A story forged in Swiss precision

Our story began at the beginning of the last century as a small sheet-metal business in Rorschach, Switzerland, established by Hermann Franke.

Since then, we opened up to the world and inaugurated manufacturing facilities all around the globe that led us to become leaders in the kitchen sinks segment, and home solutions altogether.

The recipe for a healthier future

We're on a mission to help create a more sustainable planet, one innovation at a time. From designs built with the use of sustainable materials, to efficiency optimization and waste reduction, we act responsibly throughout our business and beyond for positive long-term impact.

Taking care of the environment

Our vision is to reach net-zero greenhouse gas (GHG) emissions across our value chain by 2050 from a 2020 base year.

We have established clear goals that support this ambition to contribute to a more sustainable world for our customers, employees, and society.

We developed our near-term and net-zero targets in 2023 in line with the Paris Climate Agreement, and they were validated by the Science

Based Targets initiative (SBTi) in February 2024, setting a cornerstone in our sustainability journey.

Packaging

In 2023, we continued the switch from Styrofoam packaging to cardboard for the Franke range of granite and synthetic material sinks across Franke's distribution centers around the world.

Franke's total share of renewable packaging was 89.9 percent in 2023.

Waste

77.2% of waste across Franke Group was recycled.

Resources

7.5% reduction in total scope 1&2 CO₂e emissions in 2023 compared to 2022.

9.9% reduction in total electricity consumption in 2023 compared to 2022

Creating a proactive safety-first culture

People are at the core of what we do, and their safety needs to be a pre-condition of how we work. This approach is enshrined in our company values and drives our safety and occupational health measures. We view the prevention of physical and mental harm and the promotion of workers' health and wellbeing as a key responsibility in recognition of the fundamental human rights of workers.

“ We've reduced our scope 1 and 2 emissions for eight years running and our net-zero emissions reduction targets have been validated by the SBTi.

Patrik Wohlhauser, Franke CEO

Innovation for sustainable living

Our eco-friendly innovations are designed to empower cleaner living at home and inspire everyday wellbeing.

Taps

Stainless steel models are made of 100% recyclable steel. Our multifunctional taps range, including the Mythos Water Hub and the Vital taps with their dedicated filtration systems, reduce need for bottled water. The Atlas Neo Sensor reduces water waste by up to 50%

Sinks

Franke's sinks ranges are exemplary in terms of usage of sustainable materials such as stainless steel, Fragranite and ceramic that guarantee extraordinary product durability, resistance and long-lasting quality.

Hoods

All models are designed to reduce energy consumption and improve energy use with AUTO Functions made to automatically save energy. Class A++ hoods reduce energy consumption up to 85%. Long lasting filters and activated carbon ceramic filters can be regenerated and are designed to further reduce waste compared to standard disposable carbon filters.

Hob extractors

Our extractor hobs offer maximum energy efficiency. For example, the extremely powerful Mythos 2gether extractor hob is classed in the best possible energy efficiency rating A+++ thanks to its brushless motor.

Ovens and microwaves

With A and A+ energy ratings offering multi functions that enable different foods to be cooked in one cycle, and a steam cleaning function that allows cleaning without the need of using harmful chemicals.

Refrigerators

Designed with cold zone compartments to ensure food stays fresher for longer, No Frost technology to help prevent defrosting, and Vacation mode which allows you to keep the freezer compartment active when the fridge isn't.

Experience our new Showroom

Welcome to the Franke's Aarburg Showroom a place of discovery.

It has been key to bring Franke's new positioning to life in the Aarburg showroom concept, as well as in all spaces applying and adapting the new brand styleguide. The new colors from primary to a wide modern secondary colors selection has been applied to the display creating a vibrant, fresh and contemporary design combination.

The highlights are our product families Mythos, Maris and Smart representing in the best way Franke as System Provider. Within the showroom there is also an attention to people and their well-being with open and clear understandable demonstration corners in a delightful natural material surrounding.

Franke's innovations are brought into the showroom with a superior quality look, tone and feel, elevating to the fullest the brand and products experience.

SOLUTIONS

Solutions that work together

Our kitchens are places to live: we cook there, eat there, spend time together there, more often than not all at the same time. We thoroughly observed the movements we make in our kitchens and developed proper home solutions rather than simple appliances.

Our single products all merge together in functional systems aimed to facilitate your life and please your eye thanks to perfectly matching colours, designs and combinations.

When everything comes together, it is easier to enjoy every moment.

Food preparation areas

Taps, sinks and waste management systems.

Award-winning, smart, eco-friendly taps perfectly completed by elegant, spacious bowls that can be equipped with accessories or other smart tools so you have everything you need, always at hand. Everything in the best, most durable and hygienic materials, for example stainless steel or our exclusive Fraganite.

Hoods

Wall, ceiling, built-in, island hoods.

Every kitchen has specific needs, so we created a range of hoods able to surprise you with technology, efficiency, lighting and beautiful designs. Discover the available colours, shapes and special technologies from built-in screens to air-purifying systems.

Appliances

Ovens, microwaves, hobs, refrigerators and dishwashers.

When we design our appliances, we do so with your routines in mind, so that we can offer functional solutions that are easy to use, smart in their features and beautiful to look at.

Inspir

There is no place like home. And there are no two homes alike. The way we cherish our own nest is just as unique as we are, each one with different tastes, preferences, and needs. To help you get inspired and create the kitchen environment of your dreams, and enjoy it every day, we developed three different **families** of products.

Mythos

A passion for the best

Our most premium range. Technology meets design, while even the smallest details are carefully sought-after. This **family** sets its goal to the highest levels, combining the very essence of functionality with that of beauty.

Maris

Family in the kitchen

A family inspired by families. Cosy and functional, for savouring the heartwarming experience of a **family** get-together. Maris' philosophy is simple: welcome anyone, anytime with the pride and joy of a homemade dinner.

Smart

Straight to what matters

The simplest things work the best. Essential in its perfection, to jump to what matters the most: bringing joy to your kitchen. A **family** created to fulfill any need and preference.

What will your kitchen look like it's up to you, but whatever your way of bringing joy home, **you can count on us.**

Fragranite

An exceptionally tough material, highly resistant to burns, dents, chips and stains. Pioneered by Franke, it's a unique material with a subtle sheen that is warm to the touch thanks to its close to 80% of quartz sand. The surface is finely textured ensuring high hygiene standards.

AUSTENITIC STAINLESS STEELS (SS 304 - AUSTENITIC GRADE)

All Franke Stainless Steel sinks are manufactured using only SS 304 Austenitic grade. Austenitic stainless steel are chromium & nickel containing stainless steel with very low carbon content. Austenitic 304 stainless steel formed through the generous use of austenitizing elements such as nickel, manganese and nitrogen. Chromium content in range of 18% and nickel content in range of 8%. They are non-magnetic but can become slightly magnetic when cold worked. Cold working also enhances their strength. Austenitic stainless steel have mechanical properties over a wide range of temperatures. Additionally this steel is easy to clean.

- Anthracite 
- Gold 
- Copper 

F-Inox Technology

An exclusive Franke coating able to group water molecules and allowing you to dry your sink without ring stains. Water repellent and scratch-resistant, this futuristic coating also fears no heat up to 100°. A real and long-lasting beauty formula that you can appreciate from our Masterpiece family.

Shiny or matte; smooth or stone-like, extra-strong or super trendy. Your kitchen can speak volumes about you, so every detail counts. To offer you the chance to create your very own perfect kitchen, our range of materials is designed to please any taste, match any style and resist any endeavor. Discover each material's precision-engineered character and unique benefits to choose the one that suits your needs the best and you like the most.

Stainless Steel

Whether you prefer the more reflective qualities of the polished finish or the more subtle look of the silk or brushed finishes, which give a more matte sheen, there is a Stainless Steel solution for you. Any Franke Stainless Steel product is made from premium quality chrome nickel steel, which looks stunning and is highly resistant to staining, rust and corrosion - plus it won't chip, craze, flake, or break. If Stainless Steel is one of the most popular materials in the kitchen, it's for good reason.

PVD Coating

PVD, standing for 'Physical Vapor Deposition', is a coating technology that makes Stainless Steel tapware even more resistant to abrasions, scratches and corrosion and offers exceptional aesthetic features as well. A tap treated with a PDV coating even resists UV rays and makes fingerprints less visible in a busy kitchen. There are now an array of other stunning finishes to choose from: Industrial Black, Anthracite, Copper and Gold, you really can find something to suit every style of kitchen.

Tectonite

Heat, shock and impact don't scare our Tectonite. Sturdiness combined with unique design freedom makes Tectonite sinks the ultimate choice for hardworking, stylish kitchens. New technology represents a giant leap forward for synthetic materials, whilst allowing for exciting minimalist designs in a new plethora of trendy colours.

It's always been in our heritage to meet your **needs.**

Beautiful and made for real-life use. Steel represents our kitchen ideal.

The sheer quality of Franke products can be seen and felt. We use AISI 304 18/10 steel, which is produced in Italy and Europe: a choice that reflects our dedication to quality, one of our core priorities over the 100-plus years of our history.

Strong and robust, it maintains its brilliance over time, making it the defining feature of the living spaces in which it is installed.

Its superb technical features ensure that it is always in demand, and highly appreciated by professionals in the haute cuisine sector: furthermore, stainless steel is an extremely hygienic material, and is easy to clean and recyclable. Aesthetically pleasing and functional to use: stainless steel really represents quality in shining armour.

Customer Care and Technical Assistance

Choose Your Perfect Sink

The kitchen sink is seen as the heart of the kitchen, let your imagination run free with a range of options to help maximise space and accentuate the look of the room. The following information will help to ensure that your ideal sink is the perfect fit for your kitchen.

Choosing Your Perfect Sink

There are a number of considerations to take into account when choosing a sink. Not only how it'll accentuate the overall look and feel of your kitchen, but also how well its installation and functionality work for your lifestyle.

1. Material Options

- STAINLESS STEEL
- FRAGRANITE
- TECTONITE

2. Installation Type

- INSET
- FLUSHMOUNT
- UNDERMOUNT

3. Number of Bowls

SINGLE BOWL sinks come in a variety of sizes ideal for limited space or large spaces.

DOUBLE BOWL sinks offer great flexibility in the kitchen, providing more space, with additional options.

4. Cabinet Size

The length and depth of the cabinet, on top of which the sink will be located, are the factors that determine the maximum size of an installed sink.

5. Bowl Depth

A deeper bowl can make it easier to handle large pots and cookware, but the user's height should also be considered. A shallower bowl may provide greater comfort while working in and reaching the bottom of the sink.

Installation Type

 **INSET** the most popular installation option: practical and easy.

 **FLUSHMOUNT** a sophisticated design that enhances the look of the worktop.

 **UNDERMOUNT** an original, refined choice that allows sinks to be installed underneath worktops, creating a surface with immaculate lines which is highly functional, elegant and easy to maintain.

GREAT MEALS,
NO INTERRUPTIONS
IT ALL COMES
TOGETHER
WITH ALL-IN

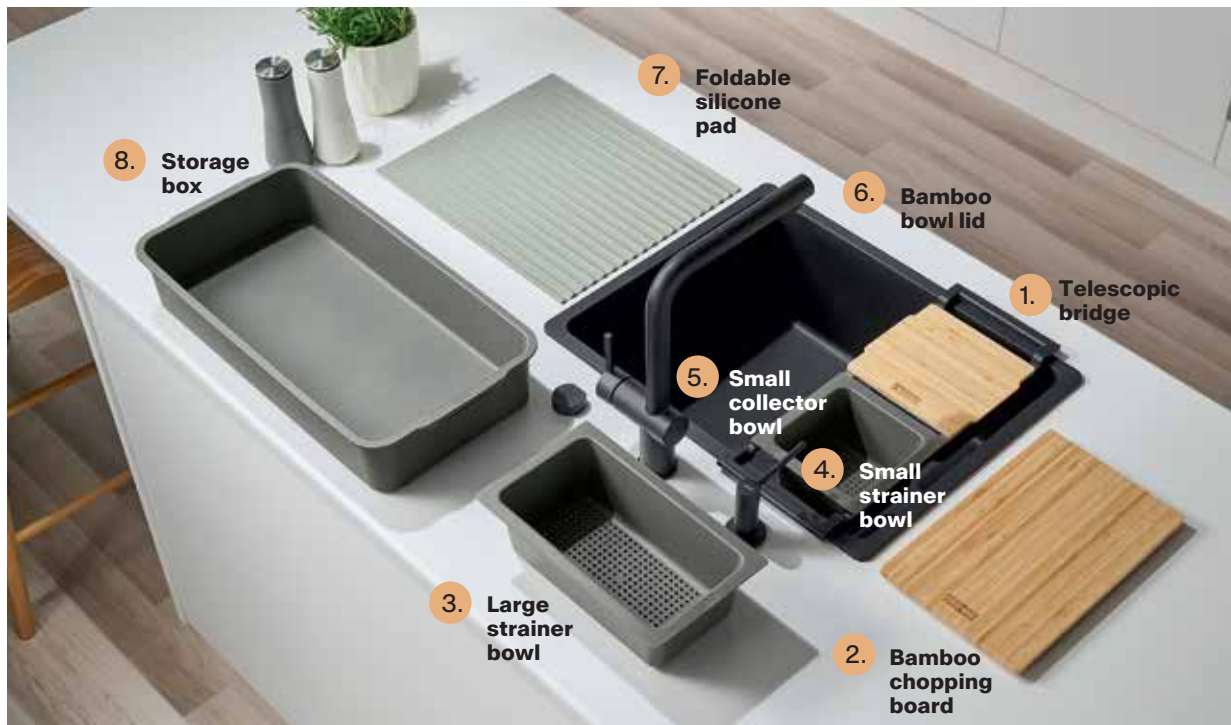

Transforming your sink into a stylish and playful workstation, All-In is the flexible food preparation system designed to bring more flow to your kitchen and life.

reddot winner 2022

Eight accessories, endless uses, fits any sink*

*Up to 540mm

Prepare

Using the bamboo board, telescopic bridge, strainer and collector bowls, All-In can help you:

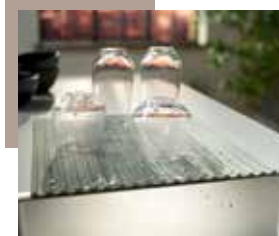

- Chop vegetables and other ingredients
- Collect the cut food
- Collect peelings and deal with waste
- Store prepped ingredients in the fridge

Cook

The bridge, strainer bowls and foldable pad are really useful at the cooking stage and you can:

- Rest pots and pans on the bridge while filling them from the tap
- Use the strainer to drain pasta, or other ingredients
- Stand hot pans and dishes on the foldable pad to protect work surfaces

Clean

When it's time to wash up, the bridge, strainer bowls and foldable pad can also help you to:

- Drain glasses and dishes
- Drain cutlery and cooking utensils

Tidy

Once the washing up is finished, All-In can still help you to tidy everything away, whether it's to:

- Store cleaning items in the sink
- Keep all accessories together in the storage box
- Put everything away neatly in your kitchen cabinets

INSTALL PERFECTION IN A MOMENT

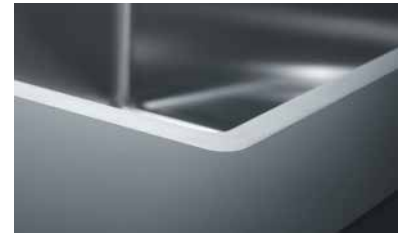

A Red Dot award-winner for best -in-class design, the Box range of sinks helps you get the job done simply and with style.

- Easy to install as a built-in sink, slimtop or undermount
- Premium quality stainless steel. High stain and corrosion resistance

Features:

R12 mm Radius, Free from sludge deposition.

Seamless Rim with Elegant match to counter top.

Suited for Under Mount also

All Franke stainless steel BOX or Square are sound insulated to reduce the sound of water in the bowl. This is achieved by rubber insulation pads under the sink, or by a sprayed dynaphon layer, applied during manufacturing. The grey dynaphon spray also insulates, minimizing heat escaping from the bowl, keeping water warmer for longer.

FRANKE

Spectacularly big

Maris Fraganite Bowl.
Spacious, durable, hygienic.

The Maris Fragranite Bowl is very minimalist

Our Maris bowls are not only an attraction in the kitchen, they just perfectly fit. No matter how your kitchen is furnished, with us you will find the right colour and the right model. A minimalist product for everyday use and easy maintenance.

A match with your kitchen

The Maris Fragranite bowl is the ultimate improvement to your kitchen. Our products offer modern looks, clever functions and plenty of space – they combine design and functionality. With a Maris bowl you have a product that simply fits and creates a lot of pleasure and convenience.

A perfectly finished bowl

Our bowls are beautifully designed minimalist objects that will blend into your kitchen and simply belong. With their extremely thin rim, they are among the most striking design bowls on the market. Moreover, the bowls are offered with a drain cover and hidden overflow.

Spacious, durable and hygienic

reddot winner 2022

Whether for cooking, preparing food or washing up, long-lasting and functional products are in demand in modern everyday family lives. The award-winning Maris bowl fits in ideally. It offers world-class durability. It is large and has a smooth finely textured surface, which naturally hinders the growth of bacteria and microbes.

Delightfully long-lasting

The bowl includes quartz, one of the hardest materials known to man, and is resistant to temperatures up to 280° C*. It's also resilient to impact and thermal shock, and so scratch-resistant that even knives won't leave marks on the surface.

Amazingly hygienic

What would a bowl be if it wasn't easy to clean? Our bowls are simple to wash and particularly hygienic thanks to their smooth finely textured surface, which naturally hinders the growth of bacteria and microbes.

*180° up to 30 minutes, 280° up to 10 seconds

For people who prefer a lot of space

Think big – also in terms of the bowl. Because when it comes to cooking, baking, preparing or washing up, things simply work better when you have plenty of space. Look forward to more room, more efficiency and more creativity in the kitchen.

Main benefits

- Impressive size and design
- World-class durable material
- Absolutely hygienic
- Diversity of models and colours
- Easy installation of the bowl
- Super thin rim

Taps worth talking about.

From satin nickel to polished chrome, from classic style to modern design, from brass to stainless steel.

With top material, extraordinary design, high quality components, and exacting manufacturing processes, Franke tap range meets every need in every kitchen.

Design

Franke's line of kitchen taps perfectly captures all the elements of today's design choices – traditional, transitional and contemporary. With everything from top flight European models with a sleek minimalist line, to sumptuous classic models that are the centerpiece to any kitchen, the addition of a Franke tap can reinvigorate an existing kitchen or make a statement all its own in a fresh design.

Manufacturing

Outstanding design and quality components come together beautifully during the Franke manufacturing process. Strict adherence to Franke manufacturing standards in forming, finishing and final assembly achieve the exceptional quality and durability that makes a Franke tap one of the most desired additions to a kitchen.

Hygiene

Superior materials with corrosion resistant and easy-cleaning features guarantee that no harmful materials enter the taps' flow of water.

Durability

Scratch and acid resistant features of high quality SUS304 stainless steel ensures our tap have a much longer lifecycle.

Functionality

Ceramic cartridges provide uniform temperature and water flow transmissions, as well as superior water-saving capabilities.

Design Award

Thanks to its outstanding quality and cutting-edge design, many of Franke taps received awards for innovation and design.

Franke Lina Taps Range

Flexibility and function, made affordable

A perfect match for every need

Designed with balanced proportions, a high spout for convenience, and quality materials such as high-performance aerators and durable nylon hoses, the Lina taps range combines style and function seamlessly. A smart choice for the heart of the home.

Wide Range of Choices

Seven models (J, L, U spout shapes and Semi-Pro) in nine colours, including Fraganite, ensuring a perfect match with various Franke sinks.

Balanced Design

Proportional and adaptable aesthetics to complement modern kitchen trends.

Quality at an Affordable Price

Equipped with high-performance aerators for excellent water flow, reliable 35mm cartridges, and durable nylon spray hoses.

Convenient High Spouts

Provides extra space for filling large pots, making kitchen tasks easier.

Magnetic Holder on Semi-Pro

Smart design for easy use, offering professional functionality even at home.

Durable One-Piece Handle Design

Exceptional durability, easy cleaning, and a smooth look, the one-piece handle design helps to strengthen the integrity and ultimately extend the lifespan of your tap.

Elite Slimline Food Waste Disposers

Cook like a chef, grind like a master

Clean up after mealtimes as skillfully as you prepare them thanks to the new Franke Elite Slimline range of food waste disposers. Each is designed to be a daily family assistant, helping to manage food waste easily, reduce risk of germs and odours, and offer a more sustainable approach to everyday kitchen life.

A powerful performance

Thanks to innovative Twist Force technology that offers exceptional grinding power, you can expect fast and efficient results without jamming. A hygiene safeguard also fights against the growth of bacteria and unpleasant odours with its antimicrobial protection.

Details that deliver

Each waste disposer features a high-flow splash guard ensuring the grinding chamber is left clean, Sound Soft Technology for noise reduction, and a strong Magnetic Rim on selected models to attract kitchen utensils and other miscellaneous metal objects.

Elegance under the sink

Thanks to a 3-Bolt Mounting System that makes it compatible with all Franke sinks and bowls that feature a 3 1/2" waste hole, and an elegant-shelled body which is designed to save maximum space underneath the sink, each Elite Slimline Waste Disposer is a refreshing piece of Franke innovation that is a welcome addition to any kitchen.

**2,600 -
2,800RPM**

Torque Talk

Permanent magnet motor

Clocking in at 2,700-2,800RPM, the high speed and torque (twisting power) produced by the permanent magnet motor of the Turbo Elite series food waste disposer is almost twice as fast as standard induction motor units (1,400RPM), eliminating any potential jams.

Torque master grinding system

Utilizing balanced turntables, armatures, and corrosion-proof components, this system provides a quieter operation, less vibration, a longer lifetime, and faster grinding of food waste – which means less time spent at the sink.

**3-Bolt
Mount System**

Here to Stay

3-bolt mount system

Cut down the time needed to get your Turbo Elite series food waste disposer up and running with Franke's new 3-bolt mount system.

Requiring only a screwdriver, the system makes for fast, easy and economical installation.

Corrosion resistance

By utilizing superior polyamide for hoppers, a synthetic polymer for drain housings, and stainless steel grinding components for all models, Franke's food waste disposers are uniquely protected against the risk of corrosion, allowing for a longer service life.

Magnetic Magic

Energy saving

Requiring less electricity than induction motors, Franke's permanent magnet motor also saves on water thanks to its faster grinding speed.

Less is more

The permanent magnet motor maintains the same power output as an induction motor, while its smaller footprint saves space under the sink and makes for easier installation.

Clean Slate

Bio Shield

Franke's food waste disposers feature Bio Shield anti-microbial agents permanently molded into their internal "wet" components to guard against odor-causing bacteria growth.

Removeable splashguards

The removeable splashguards make it easy to clean or replace – a feature that is often lacking in other brands. Users can also remove the splashguard to quickly dispose of large batches of food waste.

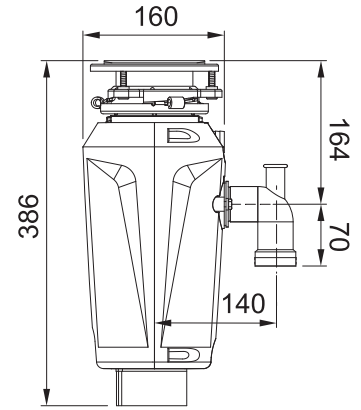

MYTHOS

TE-1.25 HP

134.0721.728

Rs. 30,490/-

Product Features:

- 1400ml large capacity can process more food waste at once
- Stainless steel grinding system and components ensure powerful and stable grinding
- 1.25Horsepower Dura-Drive DC motor provides strong torque output and high speed, eliminating potential jams
- Compact design and light weight save space under the sink with easier installation
- Overload function & blade-free design guarantee safe of use
- Air switch for safely control and easy installation
- 3 bolts all-metal mounting system for easy installation and stable performance
- Sound insulation system make it operate quieter
- Removable splashguard for easy cleaning and replacement

Technical Data:

Motor:	DC
Motor Speed:	2800rpm/min
Noise Level:	≤67db
Capacity:	1400ML
Voltage:	220=240V; 50/60Hz
Current:	3.25A
HP:	1.25 HP
Motor Input Power:	550W
Grinding System material:	SS
Type of feed:	Continuous
On/Off switch:	Air switch
Swivel plate:	SS
Dishwasher Drain Connection:	Yes

Note: FFIPL Offers a Standard warranty of 1 Year from the date of Purchase. Read the user manual carefully before installation.

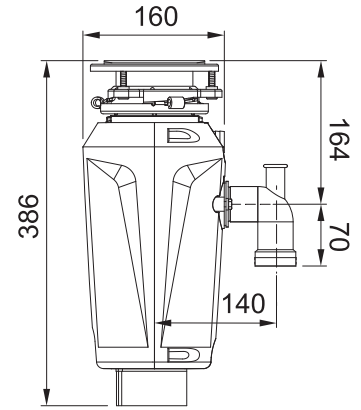

SMART

TE-0.75 HP

134.0721.729

Rs. 26,990/-

Product Features:

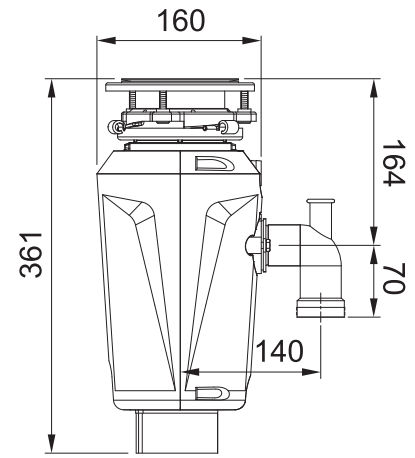

- 1400ml large capacity can process more food waste at once
- Stainless steel grinding system and components ensure powerful and stable grinding
- 3/4 Horsepower Dura-Drive DC motor provides strong torque output and high speed, eliminating potential jams
- Compact design and light weight save space under the sink with easier installation
- Overload function & blade-free design guarantee safe of use
- Air switch for safely control and easy installation
- 3 bolts all-metal mounting system for easy installation and stable performance
- Sound insulation system make it operate quieter
- Removable splashguard for easy cleaning and replacement

Technical Data:

Motor:	DC
Motor Speed:	2700rpm/min
Noise Level:	≤67db
Capacity:	1400ML
Voltage:	220=240V; 50/60Hz
Current:	3A
HP:	3/4HP
Motor Input Power:	550W
Grinding System material:	SS
Type of feed:	Continuous
On/Off switch:	Air switch
Swivel plate:	SS
Dishwasher Drain Connection:	Yes

Note: FFIPL Offers a Standard warranty of 1 Year from the date of Purchase. Read the user manual carefully before installation.
