# THOUGHT BEHIND THE DESIGN

# PROCESS

## DISCOVER

We continuously work to discover the very best materials and technologies to create experiences of living without boundaries.

## DESIGN

Qtone then works on curating designs that surpass the highest standards of beauty, resistance, versatility, and sustainability when they are put to test.

## DEFINE

We then define our purpose as to why we create something that is not only aesthetically pleasing but is also capable of creating an impact on how a space functions.

## IMPLEMENT

We make sure to implement our strong and stable values in all of our projects and never give our customers a reason to choose something else.

## WHERE FUNCTION MEETS FINE ART

This décor tile draws inspiration from the world of abstract expression, transforming everyday surfaces into living, breathing artworks. Each piece resembles a spontaneous composition of color, form, and material much like a studio floor that's absorbed layers of creativity over time. It's not just design — it's a curated statement of personality, vibrance, and visual rhythm.

## THE INDEX OF INTENT 32 SURFACES, ENDLESS POSSIBILITIES

An intentional curation of 32 surfaces  
19 expressive décor tiles and 13  
grounding earth-tone bases this index  
forms the foundation of a balanced,  
immersive collection. From vibrant  
visual statements to timeless neutral  
layers, each design is crafted to  
complement, contrast, or complete  
your vision. It's not just a list — it's  
a design language in motion.
